

CRM developer

With reference to the global head of CRM at AVK Holding, we are looking for an experienced solution-oriented, ambitious software developer (ideally with architecture experience) specialising in Microsoft technologies and Customer Engagement D365 CRM.

Your key responsibilities

Your day-to-day responsibilities include development and customisation tasks (client and server), architecture and solution design, debugging of existing solution and integrations to other business systems such as NAV, AX and to CMS Sitecore. Knowledge of the various features introduced in the Power Platform, and the concepts of the Common Data Service (CDS) and the Common Data Model (CDM) is also important.

Your role

As our CRM Developer, you translate CRM user experience requirements into the best suitable configuration, customisation, integration approaches and taking an outside-in and customer-centric approach to both front-end features and back-end data flow.

You will be part of the CRM team and will collaborate and co-create in close cooperation within the team to deliver on technical solutions for subsidiary companies in AVK Group. You will be part of creating Dynamics CRM solutions based on a global template from start to end by designing, developing, testing and implementing all the different parts in our solution. Today we have 55 AVK companies on the solution with 600 users.

Knowledge and experience

You have a higher education background in Computer Science, Mathematics or equivalent – and you must speak and write English effortlessly, and you must be Microsoft Certified in Dynamics 365 Fundamentals.

In addition to your educational background, we expect you to have experience with:

- Microsoft Dynamics CRM out-of-the-box features (client and server) – you know how to configure/customise.
- Advanced experience in extending Microsoft

Dynamics CRM using plugins, workflows and client-side scripting.

- Experience with .NET, C#, Typescript, JavaScript, PowerShell, HTML and XML at an advanced level is an absolute requirement.
- Advanced knowledge of unit testing using NUnit or other testing frameworks.
- Advanced experience with integrating Microsoft solutions D365 CRM to other business systems (NAV, AX, BI, Sitecore) - and experience with integrating canvas apps and flows.
- Experience with databases MS SQL Server 2012/2008 and knowledge with dynamics cloud and system architecture is preferable but not a requirement.

Why we think you will love it here

- We offer an exciting and challenging position with AVK Holding.
- Great opportunities for personal and professional development.
- A global working environment characterised by growth and innovation.
- An unpretentious and dynamic working environment.

It is important for us to support you in your growth by involving you in different communities and learning from likeminded colleagues from other departments within AVK.

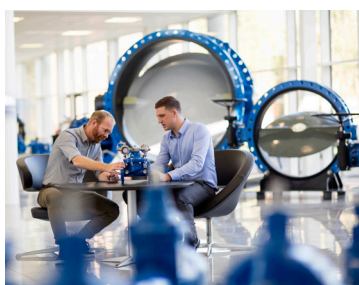

You can work either from our headquarters in Galten/Skovby (near Aarhus, Denmark) or from our premises in Poland near Poznan or Malaysia near Kuala Lumpur.

As we will continuously review applications, please apply as soon as possible. For additional information, please call Global head of CRM Sales Excellence, Manager Joy Borella on +45 3160 4031. Please send your written application including CV to jbor@avk.dk
